2015 Cat Show Photography Products and Prices

Our Basic Product Offering: The *Express CD*

Because more and more of my customers now have the basic photo editing skills and software to make the kind of minor adjustments, such as cropping and leveling, that my images might require, we now offer the *Express CD* as our basic product. We no longer offer "Prints Only."

Your *Express CD* will include every image we shoot of your cat(s) during the photo session as high resolution (21 MP) image files in unretouched, "proof" form. **And we will deliver your CD at the show!** If you want prints, you can take this CD to any photo finisher (Wal-Mart, Target, Sam's Club, Costco and most drug stores) and have any or all of the images printed inexpensively at sizes from 4x6 to 12x18.

Express CD Price List

Prices are based on the number of cats we photograph and the number of background colors you wish to have on multiple cat shoots. We offer a discount for additional cats shot (individually) on the same background color. We believe we offer you an unequalled value in terms of both the quality of our work and the variety of high resolution poses we deliver.

Each Cat/Kitten on its Own Background Color	\$ 90.
Two Cats on the Same Background Color	165.
Three Cats on the Same Background Color	240.
Four Cats on the Same Background Color	315.
2 Kittens on the Same Background Color	140.
Each Additional Kitten on Same BG Color	40.
Add for Multiple Cats/Kittens Shot Together	10.
